U.S. Throws Big Force Into Tay **Ninh Red Chase**

58th Year, No. 204

SAIGON, South Viet Nam (AP) - Communist gunners shot down three U.S. Army helicopters in Tay Ninh Province today a few hours after B52 hombers pounded the hideout stronghold there of the Viet Cong 9th Division.

A U.S. military spokesman said he had no reports yet of casualties nor any word whether new ground action had erupted in the Communist C Zone where the largest U.S. ground force of the war is pursuing the Viet Cong. Earlier only light contact had been reported.

The helicopter losses in Tay Ninh brought the reported toll of such aircraft in South Viet Nam to at least 223.

South Vietnamese headquarters claimed 80 Viet Cong killed in a clash between a company of militiamen and a company of Viet Cong 40 miles west of Saigon. Moderate government carualties were reported.

Elsewhere across South Viet Nam, ground action continued in a luli, and bad weather over North Viet Nam reduced American air strikes sharply Monday

bombers from Guam pounded the longtime Viet Cong stronghold along the Cambodian border 60 miles northwest of Sai-

IN A HISTORIC FIRST for the Roman Catholic Church in the United States, Archbishop John F. Dearden, above, of Detroit was elected president of the church's Episcopal Conference. The election which took place in Washington, D. C., at a conference of 260 Cardinals and Bishops, is in line with a world-wide decentralization movement within the church. This stems from decisions of the Vatican Council which gave national church bodies jurisdiction over many more matters than in the past. Archbishop Dearden, 59, will hold office for three years. Splash In Sea CAPE KENNEDY, Fla. (AP) -America's Gemini program reaches a blazing climax today when the record-setting Gemini 12 astronauts plunge back to earth after four days in space. Following a morning of navi-

Ready Ship For

gation and engineering experiments, Navy Capt. James A. Lovell Jr. and Air Force Maj. Edwin E. Aldrin Jr. plan to fire their braking rockets over the Pacific at 1:46 p.m. (EST) to start the fiery dive back through the earth's atmosphere.

The astronauts are to parachute into the western Atlantic Ocean 707 miles southeast of Cape Kennedy at 2:22 p.m. after circling the globe 59 times and traveling more than 1.6 million miles.

Weather Good A recovery force of ships, planes and belicopters, headed by the aircraft carrier Wasp. fanned out over the planned landing area. Weather conditions were reported good.

The splashdown will be tele vised live to the nation. Gemini 12, with three of its 10 maneuvering jets not working

at full capacity, limped slightly on the way home. The trouble was not serious and its only effect was to curtail some experi-

on Aldrin accomplished most of their assignments.

Drifting for long periods in orbit to conserve fuel, the bearded specemen set back and listened to high sidelity music piped over the radio network from mission control in Hous-

Set Records The thruster problem and other minor troubles did not stop Lovell and Aldrin from establishing a number of space firsts. Among them:

-Man's longest space walk, a 2-hour. 9-minute excursion by Aldrin during which he proved that, with proper pacing and equipment, man can work effectively outside an orbiting vehi-

-Most time working outside a spacecraft, a total of 5 hours 36 minutes by Aldrin, including two "space stands" in which he thrust the upper part of his body through an open hatch. The three sessions outside also was a record.

-Most space flight time. Lovell established this the minute he rocketed into space and addpanion, Air Force Col. Frank Borman.

Eclipse First -First pictures of a solar eclipse taken above the atmosphere, by Lovell as Gemini 12 pursued the moon across South America Saturday. Scientists anxiously are awaiting the pictures which might provide some clue to the composition of gases in the sun's corona.

As the Gemini program, which sent 20 men into space in 20 months, neared its end, space agency officials hailed the flight of Gemini 12 with phrases like "fitting climax to a great program" and "a real breakthrough in EVA-extra vehicular activity."

Dr. Charles A. Berry, the astronauts physician, said: "Everything we've seen in

EVA in this flight to date certainly leads us to believe that if you properly fix the man at his task, allow him to do it in a leisurely manner, you have no difficulty with it. It doesn't look like there is any mysterious thing that's making us pay a physiological cost."

Aldrin demonstrated on his final "space stand" Monday that he felt at home in the vacuum of space. He leisurely photo-NEW YORK (AP) -- Lorne graphed a sunset and the stars Greene, star of television's "Bo- with his heart rate remaining

Diabetes Tests Are Offered

Early detection, plus good control of the disease has been proven to decrease or eliminate the complications of diabetes, according to Dr. Mary Cretens, director of the Delta-Menominee District Health Department.

The medical profession has excellent methods and medications for control of diabetes once it is detected, she said. And it is simple to be screened

"Approximately three drops of blood are drawn from the finger and blood sugar is determined. During November, this screening test can be taken any afternoon at the Delta-Menominee District Health Department offices in either Escanaba or Menominee," Dr. Cretone said.

"This acreening is open to all age. It is advised to eat a substantial meel approximately two hours before coming in for the test. The results of abnormal tests are sent to the family doctor who then completes the examination."

Deer Crossings At Bridge Up

MACKINAW CITY (AP) Mackinac Bridge officials said Monday that 961 deer were carried across the bridge by hunters by 3 p.m., two days after the Upper Peninsula hunting season opened. This is more than 100 above the total reported at the same time last year.

Uric Acid May Control Youth's **Drive For College**

CHICAGO (AP) - If Johnny wants to go to college, he may be driven by a desire for a higher education, a desire to avoid the 'draft, or the amount

of uric acid in his blood. A study of high school boys in Pittsburgh, Pa., reported in the current issue of the Journal of the American Medical Wanociation, shows that the uric acid suggestion is a good bet. The authors of the study are Univer-

sity of Michigan men. Several investigations of teenagers' ambitions and what causes them have indicated that uric acid, a waste product of the body's metabolism, positively affects a person's drive, ambition and achievement, the report

stated. There is no connection, though. between general intelligence and the acid level - it's a purely physiological phenomenon. But the study shows college-attenders have higher acid concentrations. The authors suggest that this is evidence of the relationship of uric acid levels to a

'go-getter'' attitude. The authors are Drs. Stanislav V. Kasl, George W. Brooks, and Sidrey Cobb.

Potato Money

There's opportunity for new income for the Upper Peninsula in potato growing.

(There's similar opportunity for the U. P. in the growing of strawberries in the Copper Country.) But unless there's a new element tossed into the

U. P. potato industry the area isn't to grab this prize. The situation points again to the U. P.'s greatest single impediment to business growth — lack of enterprisers.

Michigan State University has used the genius of its plant and soils researchers and the taxpavers' money to develop some potato varieties that do very well in Upper Peninsula soils and climate. They're top quality potatoes. They can be sold for top prices. Farmers can make money growing them.

But Denny Clanahan says that we're losing the race. Clanahan is our No. 1 Know-All about U. P. po-Itatoes. He has an extensive background as a U. P. crops man in Extension and he is currently research director of the Michigan Potato Industry Council.

Interviewed at the recent 37th annual U. P. Potato Show in Escanaba he said that "The U. P. is going downhill in the potato business." The big growers, he explained, aren't getting big enough to make up for the loss of the little growers who are quitting.

Clanahan says that he doesn't know the answers to this problem, except bigness. We profess to know one answer. It consists in the creation of development agencies with strong banking elements to promote area developments which have great economic promise, but which the individual enterpriser — the potato farmer in this case — can't pull off single-handed.

The Upper Peninsula has the soils for a big potato industry. It has the climate. It has the potate varieties. It has the farmers with the knowledge needed for the business. It has the markets - especially in Detroit when the tolls on the Mackinac Bridge come down says Clanahan.

What's lacking more than anything else is the money to finance big operations in potato growing and the willingness to venture. If there could be some sort of cooperative arrangement among the agencies financing the venture to share the risks of early development. another valuable support would be created.

Allowing for the normal year-to-year fluctuations in market prices influenced by crop size and the money situation, this is as safe a venture as could be found in agricultural enterprise. Irrigation has removed the threat of drought, chemicals have reduced the disease and insect threats.

Our growers are either retiring from potato grow- outcome of the recent election, Should we exempt these men ing as the cost of mechanizing potato growing rises, or pertaining to changing the votenlarging their operations, but the process isn't holding ing age from 21 years to 18 ing to serve in our Armed throne, came of age today withthe business on even keel in the U. P. Acreage is de years. clining. Unless it is increasing substantially the business is slipping because of the great enlargement of the market for potatoes. Every day there are 8,000 new potential worsts actions in the United States, never forces? This would undoubtedly ly prove disastrous to our details proposal was defeated by such an enormous ratio. Just whom do we taxpayers think tential potato eaters in the United States, says Clana- is fighting our wars! Out of the han and that's the population equivalent in the few days 331,000 men now in Vit Nam, of the biggest cities in the Upper Peninsula.

eaching Changes By JEAN WORTH An interest in art is such an inexhaustible thing that it tor ordered for our expanding leisurely pursuits. The University of Michigan's Weekend with the Professors in the Upper Peninsula always recent weekend brought Guy Palazzola, the painter, who started the painting of a picture to show his group how he went about it and who talked during the painting process. This conversation was a lively primer for art, both for the artist and for the art enthusiast. Palazzola is a lively speak-

This year... move up

(instead of sideways)

Now there are 5 ways to move up to a full-size Chrysler. Just tell us how far up you went to go.

1. Start with our 4 Newport models. Priced just a few dollars a month more than the

most popular smaller cars, comparably equipped.

2. Newport Custom. A low-priced Chrysler you can afford. 3. Our sports-bred 300s come with the biggest standard engine available in the medium-price field.

4. The Town & Country wagon is a luxury car in front. Over 97 cu. ft. of carpeted-on-the-floor cargo space in back.

5. And New Yorker, our most fuxurious Chrysler. You can get it with extra-cost feetures like the new 3-in-1 front seat. And the passenger side reclines. We just gave you 5 good reasons, now it's up to you.

Manistane News

Three Fined In Deer Tag Counts Here

The new deer tags brought problems for three hunters in Justice Court here.

Deer and tags of Donald A. Hiene, Trenton and David A. Moore, Erie, were confiscated and fines of \$15 and costs of \$6.70 were levied on charges of failure to attach and validate deer tags.

Fine of \$25 and costs of \$6.70 were assessed Ray J. Kavalar, Ferndale, on a similar charge. There was no confiscation as the deer had just been shot, the court reported, whereas in the other cases, the animals had been taken more than 24 hours

Fredrico Ramirez, Southfield was assessed fine of \$10 and costs of \$6.70 on a charge of possessing a semi-automatic rifle capable of holding 14 shells (legal limit is five) in magazine and William Weinert, Star Rte., was assessed fine of \$10 and costs of \$6.70 for possessing a deer rifle in a game area in the five days before season opening.

Lost Hunter **Walks Out**

State Police report Emerson Tufford, 65, of Flint walked out safe from the Sturgeon Hole Creek area along M94, after spending Sunday night in the woods. He was hunting in a group and fell asleep along a runway. When he awoke it was too dark to walk out, he told officers.

Briefly Told

Public Safety officers ticketed Richard A. Lemirand, Detroit, failure to stop in assured clear distance.

The Atwater Extension Club will meet at the home of Mrs. Charles Atwater at 8 p. m. to-

Mom's Club meets Friday at 8 p.m. in the VFW clubrooms. Members have been asked to bring table service.

Goodwill Club meets at Hiawatha School at 2 p.m., Thurs-

Taken to Schoolcraft Memorial Hospital were Leon Case, 437 Walnut, at 10:25 a.m., Nov. 13, and Charles Hartley, Jackson, from a motel here at 10:10 a.m., Nov. 13.

State Police have received a report that a 30-30 rifle and other hunting equipment was taken by someone who broke into a parked car of Arthur Nelson, 1518 First Avenue, Escanaba, Saturday night or Sunday morning in Nahma Township.

A lead of Christmas trees had to be reloaded when a truck overturned Sunday at 6:30 a.m., on U.S. 2, seven-tenths mile east of County Road 438. State Police said the driver was parked on the shoulder, and rear wheels skidded sideways when he attempted to restart. Curtis K. Auck, 20, of Wautoma, Wis., was the driver.

State Police ticketed Glen W Lorei, Pinconning, Lawrence A. Melaneon, Flint, John R. Mueller, St. Clair Shores, Alfred S. Goudreau, St. Ignace, Charles 7. Biguty Pariors R. Cole, Warren and Robert R. Reynolds, Mount Pleasant, speeding; Lois A. Howard Chatham, improper use of registration plates.
